

Trimble® Equipment Checkup

Available December 1, 2015 through March 31, 2016

Cash in on the off-season and avoid the rush by making sure your Trimble mapping system is ready for the next field season. Through the Trimble Equipment Checkup, you can make sure your equipment is 100% up-to-date, extend your warranty*, and get needed repairs at discounted prices. Best of all, get a chance to win a Nexus 9 tablet!

Our Trimble Equipment Checkup Includes:

- Update OS and GPS firmware to the latest available versions
- Check GPS performance and do a full system checkup
- Receive a new, free screen protector
- Optional discounted add-ons for extended warranty options and repairs

Equipment Checkup is free if equipment is under warranty or \$125 for non-warrantied equipment.

**Extended warranties available to eligible equipment under 4 years old and currently under warranty.
Note: Free return shipping on all equipment under warranty*

Eligible Trimble Equipment:

Pro6, ProXRT, ProXT/XH, Geo7X,
GeoXM/XT/XH (6000, 3000, & 2008 Series),
MGIS Nomad (800 & 900 Series), Yuma 2,
Juno 5, Geo 2005 (battery & updates only)

Participants can also take advantage of these optional add-ons at discounted prices*:

- Extend your current warranty:
 - Nomad extended warranty **\$134 (1 year)**
 - All other eligible equipment extended warranty **\$275 (1 year)**
- 2008 Series screen replacement **\$185**
- 2008 Series battery replacement **\$135**
- Geo7X & 6000 Series extra battery purchase **\$176**

*All other repairs not covered by warranty receive 50% off labor & 10% off parts.

Examples:

Equipment under warranty: Customer sends in a Geo 6000 under warranty. They receive all updates on software and firmware, a GPS performance check, and a new screen protector free of charge. They decide to extend their warranty for a year (\$275) and purchase an extra battery (\$176). The total cost will be \$451 plus initial shipping to repair center. Return shipping is provided under warranty.

Equipment NOT under warranty: Customer sends in a Geo 6000 NOT under warranty. They pay a \$125 service fee to receive updates on software and firmware, a GPS performance check, and a new screen protector. They cannot purchase an extended warranty at the special price, (since it is for equipment currently under warranty) but they can still purchase an extra battery for \$176 and pay for shipping to and from repair center.
